NCOCC in taking meaningful action to help our users in the NCOCC consortia guard itself against cybercrime. By **June 30, 2022**, multi-factor authentication (**MFA**) becomes mandatory for key NCOCC services and applications.

MFA adds an additional layer of security by verifying not only that the person *knows a password*, but that the person also has *access to a registered device*, like a personal smartphone. NCOCC has partnered with Cisco Duo, a system that makes it easy for you to enable MFA.

How to enroll a device to use Cisco Duo MFA

Click Start setup.

Choose what type of device you are using.

What type of device are you adding?

- ● **Mobile phone** RECOMMENDED
- ○ **Tablet** (iPad, Nexus 7, etc.)

[Back] [I have Duo Mobile installed]

Launch the Duo Mobile app and click the **+Add** then click on **Use QR Code**.

Scan the QR Code displayed on the website, not the one below.

You will then get a successful enrollment banner like the one below.

Click on the **When I log in** and select **Automatically Send a Duo Push** and click **Save**.
